# Dry and Less Oily Applications

#### **General Properties**

Assembly gloves; light weight, higher fingertip sensitivity, thin structure and good fit to hands, perfect price / performance ratio

#### **Areas of Usage**

General handling, packaging, light assembly and production lines, dry gardening works, light maintenance

#### Series 111

#### SanFit 111330

Coating Micro Foam PU
Coating Color Black
Liner Polyester
Liner Color Black
Gauge 13G
Palm Thickness 0.80 mm

#### **General Properties**

It is produced by coating thin, breathable and durable Polyurethane (PU) on a durable polyester lining. While protecting your hand against mechanical risks, it does not compromise fingertip sensitivity. It makes it easier to hold dry and less oily parts compared to holding with bare hands.

#### **Areas of Usage**

General handling, packaging, light assembly and production lines, dry gardening works, light maintenance

#### SanFit 111220

#### SanFit 161240

Coating Micro Foam PU Coating Color Grey Liner Polyester White Liner Color Gauge 13G Palm Thickness 1.00 mm

#### **General Properties**

It is produced with a thin, breathable and durable Polyurethane coating on electrostatic discharge protection featured carbon lining. Thanks to its thin and durable structure, its provides maximum protection and abrasion resistance without sacrifing fingertip sensitivity and comfort. It makes it easier to hold dry and less oily parts compared to holding with bare hands.

#### **Areas of Usage**

General handling, packaging, material handling, light assembly and production lines, dry gardening works, light maintenance, assembly of electrical/electronic components

#### **General Properties**

It is produced by coating PU on a thin and heatresistant HPPE fiber and polyester blend lining. TDM 100 provides D level cut resistance according to ISO 13997 test. It makes it easier to hold dry and less oily parts compared to holding with bare hands. It is suitable for working with hot parts (100 °C contact temperature) as well as for applications where protection against the risk of cuts is required.

#### **Areas of Usage**

Metalworking, working with heavy parts, working with sheet metal, production and assembly lines, steel wire applications

# Safety Helmet

#### **General Features**

Products with EN 397 standard should be used for head protection. Different color options can be preferred in order to the employees in different departments in the enterprises (Blue, White, Yellow, Green, Red, Orange)

In metal splashes, attention should be paid to the MM sign while selecting the helmet.

#### **Applications**

- Automotive
- Construction
- Metal industry
- □ Logistic
- □ Shipyards

# Safety Helmet

#### **EB01**

Safety Helmet - Manuel

- Bidirectional ventilation hole provides maximum comfort
- Thanks to adjustable neckband, it can adjust for head sizes manually.
- Rain gutter available
- Use with headphones and viewfinder

#### **Areas of Usage**

Construction Sector, Logistics Sector, Automotive Industry

#### **EB02**

Safety Helmet with rachet

# Dust Masks

#### **General Features**

It can be folded and conically divided into two models. The conical models fit in a wide range of face sizes with outwardly protruding shape. Foldable models provide easy storage and prevent contamination. Dust masks are classified as protection class FFP1, FFP2 and FFP3.

#### **Applications**

- Automotive
- □ Build
- □ Cement
- Mine
- ┌ Food
- Medicine
- Welding Works

Series of Dust Masks

- · Reinforced body structure
- · Improved comfort nose clip does not break its structure when used again
- · Maximum comfort thanks to nose support
- · There are FFP1 and FFP2 Protection Levels
- Thanks to improved ventilation system hot air and breath out easily
- · It has a dolamit test
- It has high filtration and low respiratory resistance
- · Easy to carry, foldable mask

#### Models

- · SMC 01 FFP1, NR, D
- · SMC 11 FFP1, NR, D Valve
- · SMC 11S FFP1, NR, D Valve, Nose Support
- · SMC 12S FFP2, NR, D Valve, Nose Support

#### **SME**

Series of Dust Masks

- · It has rubber structure and it doesn't contain latex
- · Improved comfort nose clip does not break its structure when used again
- · There are FFP1, FFP2 and FFP3 Protection Levels
- Thanks to improved ventilation system hot air and breath out easily.
- · It has a dolamit test.
- · It has high filtration and low respiratory resistance.
- · Easy to carry, foldable mask.

#### **Models**

- · SME 01 FFP1, NR, D
- · SME 11 FFP1, NR, D, Valve
- · SME 12 FFP2, NR, D, Valve
- · SME 13S FFP3, NR, D, Valve, Nose Support

Series of Dust Masks

- · It has rubber structure and it doesn't contain latex
- It has a very good insulation structure without clips in the nose area
- · It has dolamit test
- Thanks to improved ventilation system hot air and breath out easily
- · It has high filtration and low respiratory resistance
- · Easy to carry, foldable mask

#### Models

- · SMA 11 FFP1, NR, D, Valve
- · SME 12S FFP2, NR, D, Valve, Nose Support
